

Air Tightness Test Engineer

Salary: £25,000 - £30,000 per annum (Dependant on Experience)

Contract: Full-time

Location: Plymouth (Remote) with travel to sites when needed

Important: Full/clean driving licence (AES vehicle provided)

Remote/Hybrid, Flexible Working, Discretionary Bonus Scheme

"I chose to work for AES because of their fantastic reputation in the building compliance and testing industry. In a short amount of time, it is clear to see why they have such a great reputation."

Joe S, Air Tester Area Manager (Recently Promoted), August 2024

We are looking for an experienced, knowledgeable Air Tester who will work with us to continue the growth and development of our team in the South East of England.

AES Compliance & Testing Ltd are best known for air tightness testing in the new build sector, we also offer other on-site services including sound insulation testing, ventilation testing, Veritherm and thermography surveys in the residential, non-residential and existing building sector.

AES Compliance and Testing is part of AES Sustainability Limited, a UK award winning and leading technical consultancy in the housebuilding and construction industry.

"I have previously worked for 3 other Air test companies over a 16 year period. From the very first day I have found AES to be incredibly staff focused, with a very accessible company structure, with support from Engineer Leads, Area Manager's, Office Support Teams right up to the Directors. Everybody is happy to pull together"

Kevin H, Air Tightness Test Engineer, August 2024

Key Responsibilities:

- Always display a professional attitude demonstrate the ability to communicate clearly with colleagues and clients
- Travel to construction sites and existing buildings, carrying out air tightness tests in conjunction with building regulations
- Focus on tasks assigned and manage workload effectively and independently
- Be an active member of the team, contributing ideas and sharing knowledge
- Take a proactive approach to learning and development
- Be an enthusiastic, self-motivated individual to cover Plymouth and surrounding areas.
- Be an experienced Air Tightness Testing Engineer, with an ATTMA level 1 qualification or equivalent
- Hold a full/clean driving license

Roles and responsibilities may vary and may be subject to change.

Our Benefits:

One of the benefits of working with a small company such as AES is that you are a big fish in a small pond rather than the other way around. Our employees are individuals, and we treat each other as such. You can speak to the Directors whenever you want, and being privately owned, we can make decisions quickly without having to fight our way through the endless bureaucracy in addition to this, we are pleased to offer the below list of benefits.

- ✓ Access to an AES vehicle
- ✓ 25 days annual holiday allowance plus statutory days and a holiday buy/sell scheme
- ✓ Contributory pension
- ✓ Discretionary bonus
- ✓ Staff social events
- ✓ Flexible hours
- ✓ Remote working
- ✓ Life assurance
- ✓ Electric vehicle scheme
- ✓ Health insurance
- ✓ Community gift back day
