

Sustainability Consultant (SAP- OCDEA)

Salary: £30,000 - £35,000 depending on experience and qualifications

Location: Remote (United Kingdom)

2024/25 is going to be an exciting year of growth for AES, we are looking to recruit an enthusiastic, self-motivated assessors to produce energy assessments and Energy Performance Certificates (EPCs) for large national developers using the Standard Assessment Procedure (SAP) methodology.

The successful candidate will be accredited with OCDEA and have field experience developing energy assessments in construction and new build.

Key Accountabilities:

- Provision of high volumes of SAP assessments and EPCs to ensure our clients achieve compliance with Part L and EPCs are issued in a timely manner
- Providing high quality consultancy and written reports at land purchase and planning stage to ensure that planning requirements are met
- Active engagement with the client and design team to ensure that sustainability requirements are taken into consideration and achieved over the lifecycle of the development

What makes us unique:

What makes AES different than others within the industry is our company values, these include:

- **Striving for the highest quality,**
- **Build collaborative and supportive relationships**
- **Value integrity and independence**
- **Be forward thinking and innovative**

We are passionate about providing a flexible working environment, including remote working, flexible hours and early Friday finish.

We have built strong internal communication channels with team strategy and away days, company wide social events through the year and a strong investment into internal growth and progression.

Bens Testamonial:

"I can't recommend AES Sustainability highly enough. Its very refreshing for an employer to be as good as they say they are and I can attest to that.

With over 10 years of experience in the industry I was eager to join an industry leader proven by multiple awards. The clear and structured progression routes were also a significant for me. Any apprehensions I had about working from home full-time were quickly alleviated."

Competencies:

- Be an accredited; **On Construction Domestic Energy Assessor**
- Be conversant with Building Regulations throughout the UK and in particular in relation to the conservation of fuel and power
- Be a licensed Code for Sustainable Homes assessor
- Have experience of leading the delivery of sustainability services in relation to large, complex residential/mixed use schemes
- Have experience of providing consultancy at planning stage and writing energy/sustainability strategies
- Have a good working knowledge of the non-residential development
- Have an ability to visualise in 3D and interpret technical drawings
- Have prior experience in a client-facing situation
- Familiar with planning requirements and experienced in the production of planning reports Conversant with M&E specifications

Benefits:

- ✓ 25 days annual holiday allowance plus statutory days and a holiday buy/sell scheme
- ✓ Contributory pension
- ✓ Discretionary bonus
- ✓ Staff social events
- ✓ Flexible hours
- ✓ Remote working
- ✓ Life assurance
- ✓ Electric vehicle scheme
- ✓ Health insurance
