

Trainee Air Tightness Test Engineer

Salary: £22,000 - £25,000 per annum (Dependant on Experience)

Contract: Full-time

Location: Plymouth (Remote) with travel to sites when needed

Important: Full/clean driving licence (AES vehicle provided)

Remote/Hybrid, Flexible Working, Discretionary Bonus Scheme

"I chose to work for AES because of their fantastic reputation in the building compliance and testing industry. In a short amount of time, it is clear to see why they have such a great reputation."

Joe S, Air Tester Area Manager (Recently Promoted), August 2024

We are looking for an enthusiastic, self-motivated individual looking to train as an Air Tightness Test Engineer.

AES Compliance & Testing Ltd are best known for air tightness testing in the new build sector, we also offer other on-site services including sound insulation testing, ventilation testing, Veritherm and thermography surveys in the residential, non-residential and existing building sector.

AES Compliance and Testing is part of AES Sustainability Limited, a UK award winning and leading technical consultancy in the housebuilding and construction industry.

"I have previously worked for 3 other Air test companies over a 16 year period. From the very first day I have found AES to be incredibly staff focused, with a very accessible company structure, with support from Engineer Leads, Area Manager's, Office Support Teams right up to the Directors. Everybody is happy to pull together"

Kevin H, Air Tightness Test Engineer, August 2024

Key Responsibilities:

- Always display a professional attitude demonstrate the ability to communicate clearly with colleagues and clients
- An enthusiastic self-motivated individual to cover Plymouth and the surrounding areas
- Someone who has a full clean driving licence as the successful applicant/s time would involve travelling to construction sites and carrying out air tightness testing in conjunction with building regulations, for which full training will be given.
- Has a good level of secondary education with the ability to communicate well with people from all backgrounds
- An individual who would be able to fit in with our established team of engineers whilst being able to work independently
- Some on-site construction experience would be beneficial but is not essential

Roles and responsibilities may vary and may be subject to change.

Our Benefits:

- ✓ 25 days annual holiday allowance plus statutory days and a holiday buy/sell scheme
- ✓ Contributory pension
- ✓ Discretionary bonus
- ✓ Staff social events
- ✓ Flexible hours
- ✓ Remote working
- ✓ Life assurance
- ✓ Electric vehicle scheme
- ✓ Health insurance
- ✓ Community gift back day
